

# "FLING AWAY LIVES"

**RECKLESSNESS TO WIPE OUT  
SHOWN BY BRITISH,  
GERMANS**

**Throw Whole of Their Weight  
Against British Left  
Wing.**

By Associated Press.

LONDON, Sept. 2, 2:15 a. m.—The Chronicle's correspondent from an unnamed town sends an account of the third British battle, dated Monday, as follows:

"The battle, which is still at an undecisive stage, was preceded by heavy artillery fire. The German guns were well served and the aim of their gunners was rendered accurate by observation of aerial pilots, who throughout the day hovered above the British position, correcting any wild firing on the part of the German guns."

"Freshly arrived troops from England were pushed forward in time to participate in the battle. These troops had been carrying out strategic movements in troop trains for several days, and in the expressive phraseology of Tommy Atkins, they were fed up with the whole thing, and were all eager for a brush with the enemy."

GOT THEIR CHANCE.

"Their chance came yesterday. Many were reserves with South Africa experience, and they marched to the front cheering the French and growling for William the Second, somehow convinced of the emperor with William (of) Vienna. French and English flags were borne at the head of each company. They were in fine fettle."

"Are we down hearted?" would shout some one from the ranks, and immediately back came the fervent reply, "No, the British are not to be down hearted by the time we finish with him."

"An overwhelming German force was thrown against our left wing, but the German impetuosity spent itself in a vain effort to overcome British resistance."

"The fight for supremacy, which continued throughout the day, is by no means ended. The brunt of the attack was splendidly borne by our soldiers and never did the unforgiving building courage of the British show to better advantage. The heavy and well directed German artillery fire made little impression on our men, although the casualties entailed by the splendid resistance of the British were necessarily heavy."

"The German artillery fire ceased only to permit the advance of the German infantry for hours hurled themselves against the British wall of steel."

"Toward evening and after a day of most sanguinary fighting our brave fellows were compelled to give ground slowly. The slight advantage attained was dearly purchased, as the attacking German infantry fell in heaps."

"On the right and center the French were more fortunate than ourselves and contrived to hold their own. Toward evening, when the full force of the German attack had spent itself, the French delivered a sharp counter attack, driving the enemy back to their front. The German losses are stated to be very heavy."

"The Germans are displaying extraordinary recklessness, flinging away thousands of lives in the hope of ultimately gaining their end. Doubt the rapid advance of the Russians in eastern Prussia has something to do with this and is responsible for the frantic and insane haste which characterizes the German attempt in northern France to smash the British line which so valiantly bars the road toward Compiègne, Soissons and Paris."

## FOREIGN MISSIONARY SOCIETY IN CONFERENCE

Miss Henrietta Brewer of this city and Rev. Francis J. Van Horn, pastor of the First Congregational church, took part in the conference of the Foreign Missionary Society held today in the First Presbyterian church of San Francisco, where delegates from the Congregational churches of Washington, Oregon, Idaho and California were in attendance. On account of the rebuilding of the First Congregational church of San Francisco the women of the First Presbyterian church permitted the Congregational missionaries to hold their sessions in their house of worship.

Among the speakers were Mrs. G. B. Corlies, Natal, South Africa; Miss Henrietta Brewer of Oakland, who has just returned from a two years' tour around the world; Dr. F. J. Van Horn, Mrs. W. R. Ferrier, Mrs. F. F. Barboza, Mrs. W. Thomsen, Mrs. E. P. Wagner of San Jose, Mrs. J. H. Lesh of Pasadena, Mrs. Walter Hope of Portland.

**CARRIED CONCEALED WEAPON.** SAN FRANCISCO, Sept. 2.—Miss Mary Barboza, an entertainer at the All Nations dance hall on the Barbary Coast, is a petite blonde of prepossessing manner. Despite her smallness she managed to carry a concealed weapon.

"One of the women in here threatened me," she explained, "and I made up my mind if she went too far I would pop her." She was booked for carrying concealed weapon.

**German Commander Brought  
Up Best and Freshest  
Men.**

By Associated Press.

LONDON, Sept. 2.—The Chronicle's correspondent from an unnamed point in France, gives a description, obtained from officers of the great battle near Mons on August 26. He says:

"The soldiers agree that Wednesday's battle was by far the more terrible. Certainly it came at the end of several days' fighting, but they tell me the Germans put more strength into that day's work than perhaps any other."

"I think the Germans felt that here was an opportunity to wipe out the British force, and they brought up vast numbers of their best and freshest men. They assailed the British position not only with determination, but with what I can only justly call ferocity."

"No doubt the German general staff was of the opinion that the British force could not stand before an attack by an enemy twice as strong in numbers and much stronger in artillery. It was really the first battle in history on which a battle has taken place between a German and a British army, and I think, when we can read its story as we can that of Waterloo, we will be found that the battle in which twice as many men were engaged as at Waterloo, deserves far higher place purely as a military achievement."

ATTACK AWE-INSPIRING.

"It was something really awe-inspiring, another officer said, in speaking of the same day, to see those terrific German rushes. The attacking forces were well served, too, by artillery. Generally the artillery fire of the Germans has been poor."

"When you saw the rush start, you thought nothing on earth could stop them. Those tremendous charges were stopped and the attackers driven back in disorder is due in the first place, I am certain, to the marksmanship of the British soldiers. The officers naturally expected a good deal in the particular direction, but I don't think they thought the men would do so superbly in actual warfare."

"At the end practically of our week's marching and harder fighting and in the face of perhaps the fiercest and most desperate attack ever delivered in modern warfare, it must have surprised the Germans."

"Judging from what they saw, the officers state that Wednesday was the most serious day for Germany since the war began."

**FRIENDSHIP IS  
SHOWN TO AMERICANS**

**Mrs. Benjamin Harrison Signs  
Statement Appreciative of  
Teuton Hospitality.**

NEW YORK, Sept. 2.—Friendship of German people for Americans is deep-seated, and took concrete form in many acts of kindness during the early days of the great European conflict, according to Mrs. Benjamin Harrison, widow of the former President, who reached New York yesterday on the steamer, Reinland from Reims.

Mrs. Harrison and twenty-four other Americans who were in Germany at the outbreak of hostilities, drew up a statement embodying their views before the Reinland reached port. Among the signers were Prof. Harry H. Love of Cornell University and Prof. Carl D. Fehr of Lafayette College.

As Americans returning from Germany, the statement read, "we feel it our duty to set forth the truth concerning our treatment in Germany and to contradict any false impression that may now be current."

While the German people treat the Americans with great courtesy and kindness in times of peace this was especially emphasized in times of war.

"This spirit was especially well shown, even in the midst of their great sorrow, by a public meeting for the American people. Again the kindly spirit of the nation was shown by providing special trains, even though these trains were needed for the transfer of soldiers and munitions of war, to convey the Americans from various parts of Germany to ports where passage home could be secured."

**ENGLAND ENLISTS 200,000.** LONDON, Sept. 2.—The first 100,000 recruits who responded to Lord Kitchener's appeal have gone into training in various parts of the country and men now are enrolling at the rate of 10,000 a day.

In London alone 10,000 joined the colors in the last two days, while the response in the provinces has been equally gratifying. In Birmingham, where the recruiting is particularly brisk, the Lord Mayor, Colonel Ernest Matthews, has resigned his office and volunteered for foreign service. Sir Edward Carson, the Ulster Unionist leader, has called a meeting of the leaders of the Ulster volunteer force for Thursday, when he will submit a scheme, with the concurrence of the war office, for the utilization of this force as one body.

**RHODES SCHOLARS ENLIST.** OTTAWA, Ont., Sept. 2.—All the Rhodes scholars from Canada and most of the Rhodes scholars from other parts of the world who are now at Oxford have enlisted for service with the British forces, according to information reaching here. It is learned that a squadron of the King's Royal Horse has been entirely made up of these over-seas Oxford undergraduates.

## Admiral Once, Poor Exile Now HE CANNOT SERVE HIS KING Primrose Path Led Far Astray

FAR away in the North sea the British navy lies hidden. Swathed in banks of fog, drifting on the ice-strewn water of the north, the last hope of England waits for its death grapple with the foe. And here in California a broken man watches and wonders. "It is somewhere up there," he mutters as he studies the maps on the newspaper building with feverish eyes. He can't forget it ever. The great ships haunt him. In his sleep he fancies he hears the booming of cannon, the call of bugles, the shouts of command. For, outcast that he now is, he holds a name famous in England, for he was an admiral in the navy before he began to drink. Now it is below the dead-line on Broadway, down below Seventh street at the Salvation Army headquarters, where from time to time he is seen. And people have got to know him, this dull-eyed man in shabby, well-worn clothes, with the manners of a gentleman, and they wonder about him as they haggle over rags in the shop, or chop wood and sort papers in the backyard for their night's lodgings.

DOWN AND DISHEARTENED. "Am I surprised at his being here?" Manager Stanley replied. "You think it's only the submerged tenth, as those high-brow fellows call it, that is set down here? Well, you don't know. Sometimes it's the others, the people who have had chances; they are the hardest to help. When they go they are done for. There's no pulling them up. Like this man, I've known him for years. He gets money from England; then he goes away. And when every cent is exhausted he comes back. "Who is he?" Stanley looked away. "He says I'm the only man in America who knows his real name. He was kicked from the navy, so he came out here. Drink did it. He said he didn't care. England will never fight he used to say."

"And now?" "Now it's ghosts. He seems to think of nothing else. There he is; you can see him. He's studying the map."

In a corner near a pile of half-worn shoes an old man was sitting with a crumpled map in his hands, which he fumbled, mumbling vaguely to himself. "And you can't do anything for him?" "Give him the price of a drink, that's all."

## CHICAGO NEWSPAPER CORRESPONDENT SHOT

**Young Frenchman Meets Tragic Fate in  
Brussels; German General Scored**

By Associated Press.

LONDON, Sept. 2.—The correspondent of the Telegraph, who has just returned from Brussels, describes conditions there and brings the report that a young Frenchman, who represented the Chicago Daily News in Brussels, has been arrested and shot.

"On Saturday I reported to German headquarters in Brussels where I found General von Jarosky, who is commander of the Fifth Brigade of the Sixteenth division. His aide de camp, Lieutenant Geyar, spoke English, having married a woman from St. Louis. I asked for a pass and received one to go anywhere signed by von Jarosky, who commanded a brigade of 5000 men in an army of 100,000."

"Geyar was passing passes to all who asked. He handed one to a young Frenchman who represented the Chicago Daily News. I have since heard he has been shot."

"I was in Brussels for some time before the Germans entered. It was midday of Wednesday. I was in a point near Hal, where I learned of the great turning movement toward the allies' left flank. I realized at once that no newspaper man would be allowed here, and doubted the credentials given me by von Jarosky. I felt sure that I remained I would be arrested and shot as a spy."

**TOWN IN TURMOIL.** "On my return to Brussels I found the town in a turmoil owing to von Jarosky's stupidity which had nearly involved the town in the same fate as that of Louvain. He had been left in the city with 5000 men and he moved 2000 of these suddenly out of the city. Then he suddenly he became alarmed for the safety of the remainder among so large and hostile a population, and he therefore sent back the 3000 who were camped outside."

"The citizens, seeing these men hastily returning at once jumped to the premature conclusion that the Germans were being forced to retreat in a great battle outside the town and that they were fleeing in confusion. Some of the inhabitants, therefore, wished to take arms and finish off von Jarosky and his men, but fortunately the error was discovered in time. Von Jarosky was a bluff old soldier but utterly incapable of executing the important duties of command in Brussels."

**SURRENDER DEMANDED.** "I was in Brussels for some time before the Germans entered. It was midday of Wednesday. I was in a point near Hal, where I learned of the great turning movement toward the allies' left flank. I realized at once that no newspaper man would be allowed here, and doubted the credentials given me by von Jarosky. I felt sure that I remained I would be arrested and shot as a spy."

**PRINCES BANQUET 'MID SCENES  
OF DEATH AND DESOLATION**

**Retreating British De-  
coy Germans  
to Death**

LONDON, Sept. 2, 5:25 p. m.—The Ostend correspondent of the Express quotes Leon Hild, Senator of Hainault, as testifying that the Germans killed their own severely wounded on the battlefield, only tending those who would soon recover.

There are many signs, according to the dispatch, that the Germans suffered heavily at Mons. Returning remnants of those who were in the fight spoke bitterly of British courage. One force of 250 British, it is said, must have accounted for thousands of Germans.

All along their line of retreat they had prepared a defense made with bags full of potatoes, found in a neighboring village. Through these were placed Maxim guns and other top German helmets. The first time the Germans came up to these seemingly friendly lines the Maxim spoke and soon as Germans were left, Mons is reported to have suffered heavily and its whole neighborhood was devastated.

**WAR HOSPITAL READY.** LONDON, Sept. 2.—Lady Paget, wife of General Sir A. H. Paget, chairman of the American women's war relief fund, was advised yesterday by the war office that it desires to make use next week of Old Way House in Devon, which is fully equipped with 200 beds, surgical appliances and medical supplies, all certified by American doctors as fit for the protection which the British navy afforded tourists returning to the United States. Dr. Ernest Lane, chief surgeon, and a full staff of nurses and orderlies are ready to receive the wounded of all nations.

**NEW ZEPPELIN BUILT.** LONDON, Sept. 2.—A dispatch to the Express from Geneva says that a new Zeppelin, which has been rushed to completion at Friedrichshafen, sailed over Lake Constance yesterday and later left to replace Zeppelin No. 7, which was captured by the French at Badonviller, near the Lorraine frontier.

with 5000 men and he moved 2000 of these suddenly out of the city. Then he suddenly he became alarmed for the safety of the remainder among so large and hostile a population, and he therefore sent back the 3000 who were camped outside."

## BELGIAN REFUGEES SUFFER CRUELITIES

**Women and Children Undergo  
Hardships and Suffer From  
Lack of Food.**

By Associated Press.

PARIS, Sept. 2.—Mrs. Herman H. Harjes, wife of the Paris banker who with other American women has been deeply interested in relief work, yesterday visited the North Railroad station and was shocked by the sights she saw among the Belgian refugees.

"The station," said Mrs. Harjes, "presented the aspect of a shambles. It is the saddest sight I ever saw." It is impossible to describe the horrors which afflicted the poor unfortunates had undergone.

"I saw many boys with both their hands cut off so that it was impossible for them to carry a gun. Everywhere was filth and utter desolation. The helpless little babies, lying on the cold, wet cement floor and crying for proper nourishment, was enough to bring hot tears to any mother's eyes."

"Mothers were vainly beseeching the authorities for milk or soup. A mother with twelve children said: 'What is to become of us? It seems impossible to suffer more. I saw my husband bound to a lamp post. He was gagged and being tortured by bayonets. When I tried to interfere in his behalf, I was knocked senseless with a rifle. I never saw him again.'

**RED CROSS GIVES AID.** "The work which the Red Cross is doing is excellent, but unfortunately it has not sufficient members to cope with the situation. Also its equipment is poor. I saw babies being bathed in dish pans in cold water, no hot water being available. Dr. Andre Collin, who is in charge of the relief work, is almost worshipped by the people, owing to his untiring efforts in their behalf."

"I am told that the French authorities are doing all that is possible to relieve the refugees, but the funds at their command are insufficient. I with the help of a policeman, took with me coffee and bread and provisions as an automobile would hold into the station and was greeted as a fairy godmother."

**GERMAN REGIMENT CUT UP.** LONDON, Sept. 2.—The correspondent of the Daily Mail at Boulogne reports that a regiment of German infantry has been cut up and almost completely destroyed by the allies.

"Since Friday night," he says, "a large body of German troops has been surrounded in a forest, which is being fiercely bombarded on all sides by the allies."

"Heavy slaughter occurred during a two days' battle, which finally ended with the retirement of the Germans, who left large numbers of dead and wounded on the field. The losses of the allies were also heavy."

No location is given in this dispatch as to where the fighting occurred, but it undoubtedly refers to the German attacks on the French left flank.

**PROTEST BOMB DROPPING.** PARIS, Sept. 2.—The following official statement was issued by the War Office last night:

"On our left wing as a result of the turning movement of the German army and in order not to accept battle under unfavorable conditions, our troops retired toward the south and eastward."

"The action of the German forces have arrested the enemy momentarily. In the center and on the right the situation remains unchanged."

**WOUNDED ARRIVE.** PARIS, Sept. 2.—The number of wounded arriving at different points shows that the fighting in the north continues in great numbers. Yesterday 700 wounded soldiers arrived at Cherbourg, 500 at Orleans, 300 at Briancourt and 200 at Paris. Nearly all of them had wounds in the legs or arms. The number of prisoners is also considerable. One convoy of 183 has arrived at Nimes, another of 430 at Troyes and 100 at Clermont Ferrand.

## AMERICANS, MISTAKEN FOR ENGLISH, STONED

**But Apologies Were Offered As Soon As  
Error Was Discovered**

By Associated Press.

ROTTERDAM, Sept. 2.—Americans who found themselves in Germany during the first few days of the European war were in no way molested and the German government took every step to protect them. This is the total of statements made here by Americans returning from Germany.

Several instances of abuse and personal danger were recorded, however, but in every case the excitement incident to the declaration of war, mobilization and resulting high spirits properly ascribed, can be easily recovered.

The American refugees at Rotterdam were unanimous in their praise of the Germans, and the closest canvass by the Associated Press correspondent disclosed not a single instance in which an American had a complaint to make. Only one instance was brought to his attention: one of a naturalized citizen of German Lorraine. The man had been home for a visit when war was declared, and was drafted to serve in the landsturm for which his age made him liable. After working for two days at trench digging, he was discharged, the excuse of the officials being that they had believed the man's naturalization papers were spurious. Most prominent American travelers in Germany were given a sort of "laissez-passer," or passport, which in most cases exempted them even from having their baggage inspected.

**EDITOR IS ARRESTED.** AMSTERDAM, via London, Sept. 2.—According to the Berlin Standard paper Vorwarts, the editor of the Volks-Freund of Brunswick has been arrested by the military authorities, owing to the publication of articles calculated to inflame public opinion.

Americans in cities had no difficulties of any sort. They were warned to keep off the streets after sundown, because the lower classes, it was feared, might mistake them for English. But after a few days this was no longer necessary and while the Americans in most cases had been politely requested to leave Germany at their first opportunity, no pressure for their departure was applied.

**HARD TO GET MONEY.** Up to about August 5 it was some difficulty to obtain money in Germany upon American paper of any sort. It was soon realized, however, that all American drafts, notes and letters of credit of standing were good, and after that it was a comparatively easy matter to secure money. Many banks limited the daily allowance of Americans to about \$20. Persons who found it impossible to realize on paper in their possession were given credit by the banks and boarding-house proprietors. Those who were caught while en route were given accommodations in most cases on the promise that they would mail the amount of the bill from the United States.

The Bristol hotel at Berlin, for instance, turned 150 rooms over to the Americans absolutely free of charge, and those who failed to get rooms at hotels were taken in by inns, similar reports were made by Americans from other parts of the empire. The cities in which Americans were especially well treated are Berlin, Munich, Frankfurt-on-Main, Cologne, Hamburg, Dresden, Leipzig, Magdeburg.

The many health and summer resorts and virtually every other place where familiarity with American and English tourists made distinction between them possible are also very kind to American tourists.

The Americans here said that they had little cause of complaint. A party of them stranded at Cologne was put free of charge by a prominent hotel there. Women and men of literary array were permitted to pass over the Holland border without trouble.

The Dentist  
Who Does Your  
Work Right.

You must come to the ALVEOLAR PAINLESS DENTIST to secure Alveolar painless dental work.

The style of my advertising may be copied, but do not be deceived by imitation.

I am still at the corner of 15th and San Pablo ave. That's why I am warning you of the fact that there is only one Alveolar Painless Dentist office.

You cannot get better work regardless of what you pay. My prices in the office are as advertised below.

Positively Painless Extraction. 22-k. Gold Crowns.....\$4.00 Bridge Work, per tooth.....\$4.00 Best Plates made.....\$7.00 Plates repaired.....\$1.00 Gold Fillings and Inlays.....50c up Silver Fillings that will not turn black.....75c Teeth cleaned right.....\$1.00 Painless Extraction.....50c

All Work Guaranteed.

## DISCUSS PLANS FOR O.T.R.R. FUTURE

in mind and it will be easier to understand why the skin is so often in such a lovely complexion. Nature is constantly shedding the top skin in flaky particles like dandruff, only much smaller in size. As the skin grows older and is advancing age, these particles are not shed so rapidly as in robust youth. The longer they remain the more soiled or faded the skin becomes. The immediate cause of a "dead complexion."

It has been discovered that ordinary mercolized wax, to be had at any drugstore, is the best treatment for the skin. The absorption, while hastening Nature's work, goes on gradually enough to cause no inconvenience. In a week or so the skin is again fresh, healthy-hued, youthful and underlain is then wholly in evidence. You who are not satisfied with your complexions should try this treatment. Use the wax nightly, like cold cream, washing it off mornings.

## believe Kidnaped Lad Is in Oakland

Kidnaped from a school which he was attending in Hollywood, Los Angeles county, on April 24, last, 8-year-old Hans Pederson is believed to be somewhere in Oakland and the district attorney's office has been asked to make an investigation by the mother, Mrs. Martha Pederson of 4403 Erie street, Hollywood. Mrs. Pederson telephoned 2284 1/2 East Fifteenth street, a year ago was in the local courts as the result of having her husband arrested for cruelty. She obtained a divorce from him in the south, together with custody of the child. Since the kidnaping last April she has been unable to get any trace of her husband, who was

amount needed for the schools and there is nothing left to be done but set the schools on foot again in order to be able to accommodate the pupils. The schools will be superintended by teachers, who have made a life study of this problem. The children will gradually learn the alphabet and how to count.

**4000 BELGIAN PRISONERS.**  
By Associated Press.  
WASHINGTON, Sept. 2.—Germans took 4000 Belgian prisoners at Liege, according to personal letters received today by Representative Metz of New Jersey. The first mail from Belgium today said Mrs. "convinces me that the second reserves are not yet called out, for I know a number of men in Germany who are 47 or 48 years of age who are still at their work. The first line is from

system along Macdonald Avenue from Fifth to Sixteenth street.

A collection of imported Model Hats and copies. Will be placed as an introductory special at **\$10.00.**

The new school will be a structure and will have rooms. Special attention is to the lighting.

## NEUTRALITY DOES NOT SHUT OUT DISCUSSION.

While this nation is observing strict neutrality with respect to the war abroad, and all good citizens will be careful in commenting on the topic not to wound the feelings of any alien, citizen or non-citizen, by harsh discussion or criticism, it does not sound reasonable to say, as has been said in various proclamations from the President down to mayors, that our own people must hide in a corner when talking over a situation that is bound to provoke conversation, or that we must be extremely careful not to whistle air which might jar the sensibilities of those who have friends engaged in the conflict.

Certainly no well-bred man or woman wants to give offense. Common courtesy demands that men and women refrain from indulging in criticism calculated to offend. No one wants to harrow up the feelings of those who are watching the strife with an interest the native-born American cannot be expected to manifest, and it seems as if the pronouncements from executives, exalted and inferior, are being overplayed. We cannot be expected to refrain entirely from forming and expressing opinions as to the outcome of battles, their manner of conduct and the possibilities of the future for all that is educational in a way.

To date THE TRIBUNE has refrained from taking sides with either party to the conflict, realizing that in the community it serves with news there are many Belgians, French, Germans, Austrians and Russians and not being desirous of giving offense to any. That policy will be continued. But THE TRIBUNE proposes to comment on events as they occur, if occasion warrants, without malice, prejudice or partiality, and it looks as if a citizen has the same right. In fact they have and many of them are exercising it. There is no necessity for a complete clamping down of the lid, so to speak, especially when it is noted that French and German citizens, Belgians and Austrians, may be found almost daily talking over matters between themselves without malice and without heat, discussing movements of armies and indulging in predictions as to things that will occur. If these peoples can talk matters over among themselves without getting into difficulties, surely Americans need not hide in seclusion where with bated breath and in low tones they talk over affairs lest they give offense to some one who might be listening.

"We, the jury, find that Miss Helen Wood Smith met death by strangulation at the hands of one George Kodani, a human being, and charge the said George Kodani with murder." The foregoing is the verdict in the famous Carmel murder case. It reminds one of the famous "crown's quest law" which was the joke of the clowns in Hamlet. Why describe the murderer as a human being when he was inhuman, and omit any mention of the unfortunate victim's anthropology?

## SHELLING SHIPS FROM AIRSHIPS IS BARBARIC.

It is noted that both sides to the contest abroad have been indulging in the practice of dropping explosive shells from aeroplanes into cities and towns to the danger of non-combatants. This may be war, according to the ideas of those engaged, but it is none the less barbaric for the reason that it endangers the lives of women and children, old men and other non-combatants. It is related that in one instance explosives were dropped on hospitals maintaining wounded. This is so foreign to the civilized idea that it appals those who read.

People are prone to speak of the rules of "civilized warfare." Imprimis, there is no such thing as civilized warfare—war being nothing less than savagery—but to date there has been a rule generally observed by all nations to the effect that women and children should be spared, that old men were to be respected and that nurses and doctors and members of the Red Cross were exempt from attack. To violate this unwritten rule is to return to the state of mind where age or sex were not exempt, when war meant annihilation of all the vanquished at the hands of the victors.

It is reported that in one attack made the advancing force utilized Red Cross wagons for the concealment of men and machine guns. This is so flagrant a violation of the rule of mercy that we hope it will be disproven, for the commander suggesting or consenting to the use of such tactics is deserving of no better fate than to be stood up against a wall and instantly shot.

For the reduction of fortifications it is presumed the use of the air machine is permissible, because fortifications are manned by soldiers who are there to kill or to be killed. But when one considers the havoc and terror resulting from attacks on the innocent through promiscuous scattering of death-dealing devices from the skies, he cannot refrain from expressing repugnance and horror. Surely a nation following such a course cannot hope to win, and surely one following such a course is guilty of blasphemy in invoking the aid of the Lord of Hosts. It is Lucifer to whom they should pray and we doubt that with all his meanness, His Satanic Majesty would answer such a prayer.

Just as the San Francisco papers had the German cruiser engaged in a blockade of that port, the vessel bobs up at Honolulu. Well, a few thousand miles of distance makes little difference in a San Francisco story; perhaps the Nuremberg is going to blockade from Hawaii this way.

## GERMANY IS LOSING FOOTHOLD IN PACIFIC.

Japan's action in taking part in the war on behalf of her ally, England, will doubtless be the reason for Germany losing her Pacific possessions. Kiaochow is invested, Apia has been taken and the others will no doubt follow.

Germany previous to the outbreak of hostilities had an area of 96,000 square miles of territory, with a white population of 1984 and 634,000 natives. The most important of all was Kiaochow, a district of two hundred miles square on the east coast of the province of Shantung, China. Its population is about 170,000. The principal port is Tsingtau, which is strongly fortified and garrisoned by 3125 soldiers, German marines and Chinese troops. Second in importance are Savai and Upolu in the Samoan group which have apparently already fallen. Other German possessions are the Caroline group, the Pelew, the Marianes, the Solomon and the Marshall islands, all of commercial value and rich in resources.

Japan proposes turning over Kiaochow to China and England has seized the Samoan group and will doubtless follow with the capture of all. So that unless Germany wins the war in Europe and by so doing places herself in a position to dictate terms, her commercial prestige in the Pacific will be shattered and it will be a long time ere she can regain it, even admitting the possibility.

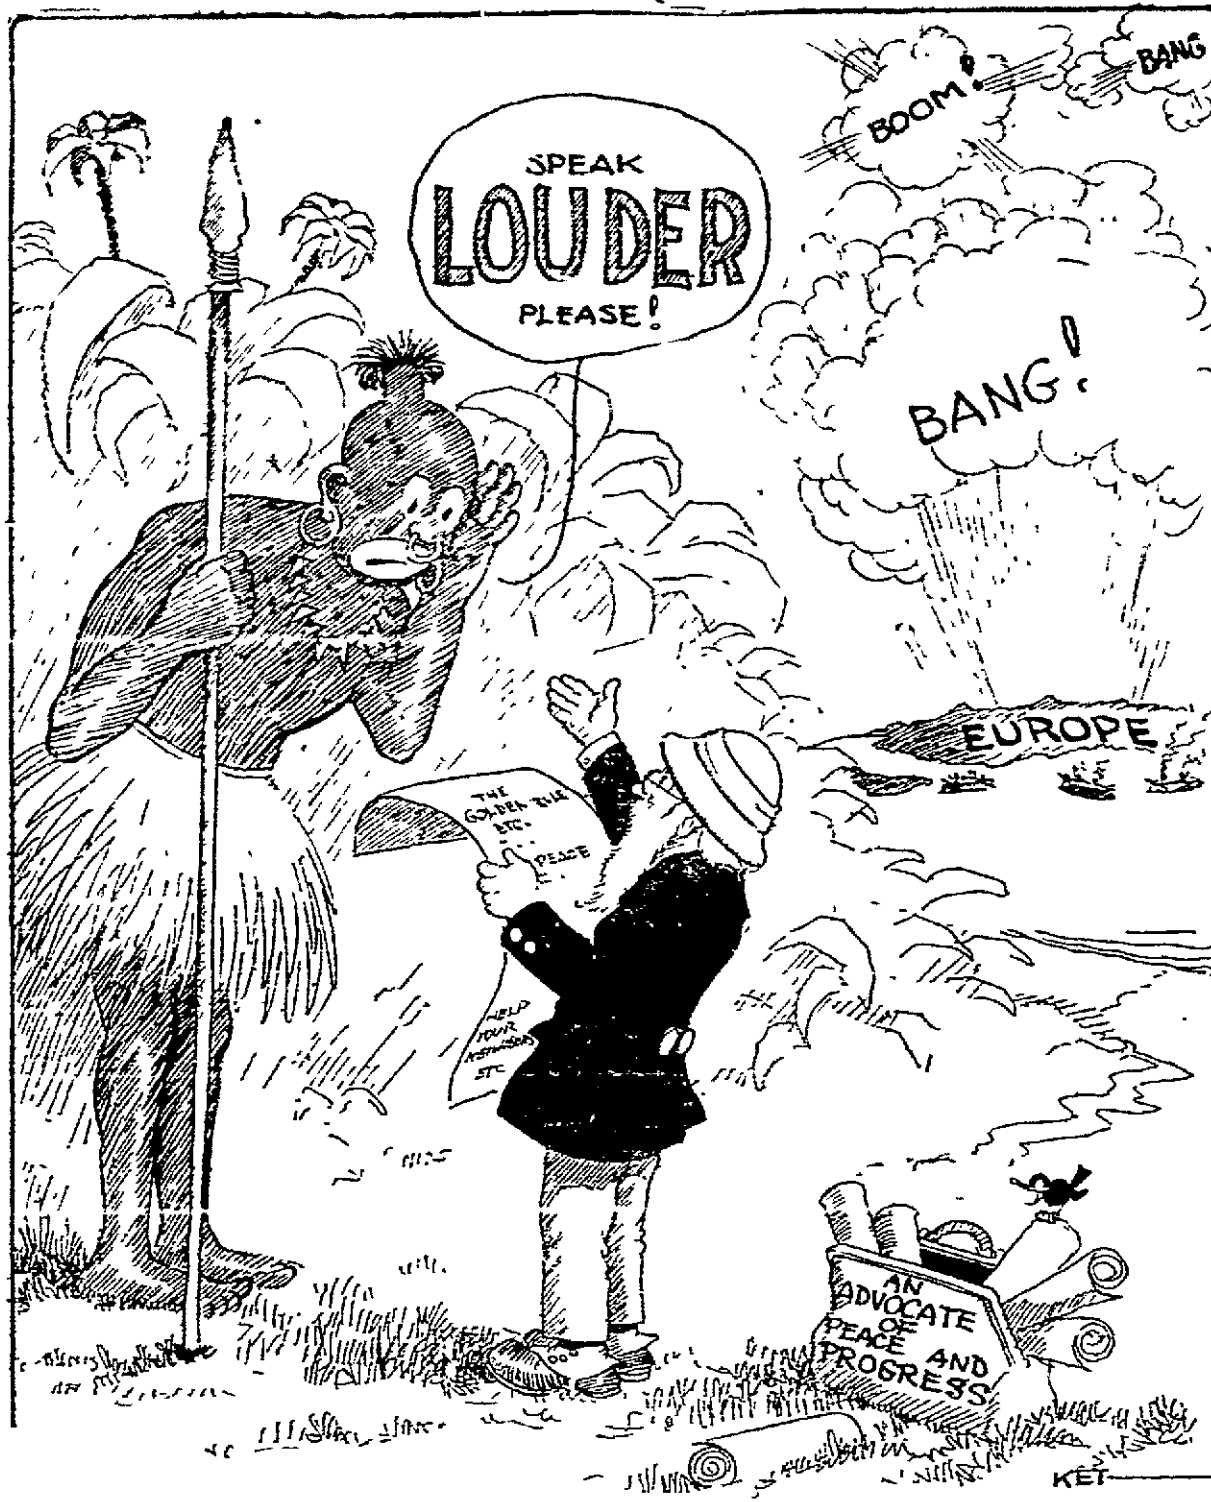

By planning to loan its employees money at five per cent per year, thus shutting out the loan sharks, the United Railroads of San Francisco show itself to be philanthropic as well as practical in its business transactions.

Senator Owen of Oklahoma says with the bumper crops and new banking laws, panic in this country is impossible. Well, who said anything about a panic?

Inferring from the size of the ballot at the November election, California electors will vote by the foot this year.

Even Butte, Montana, is imbued with the war spirit.

## MISSIONARY WORK

—BY THE OAKLAND TRIBUNE CARTOONIST

## WE PROTEST AGAINST THIS PROPOSED ACTION.

Announcement is made from Washington that the Ways and Means Committee of the House, aided and abetted by the administration, meaning the President and his cabinet advisors, plans for a five or ten cent war stamp on railroad passenger tickets, theater tickets and baseball tickets. It is related that this tax will bring in from \$50,000,000 to \$80,000,000 annually.

We do not care if it produces \$100,000,000 or more. We protest against it. We protest against taxing people for the purpose of traveling or for amusements. Tax tobacco and cigars, ale, wine and brandy and other liquors of like character; tax nut sundries and ice cream sodas; tax liver and bacon; tax charlotte russe and blanc mange but let the people ride without paying excess fare and permit their amusements to escape. We don't have half enough fun as it is. Why, a fellow cannot go fishing without being taxed, he cannot go hunting without being taxed. He is taxed here and there, hither and yon, going and coming, sleeping and waking, dead and alive. Life is too short to tax the seeker after simple pleasures to have them made more expensive.

However, it will be just like this administration to attempt it, and if it does, if it does, if it does, just watch the people resent it.

Germany has taxed Baron Rothschild \$2,000,000 for its war fund. That's enough to make a man renounce his allegiance and quit the country.

One of the humors of the war situation comes in a report that in order to get out of Europe, Chauncey M. Depew was compelled to ride in a cattle car.

Associate Justice, former Attorney-General McReynolds, has decided to take a rest for a month before assuming his new duties. He needs it.

## TWENTY YEARS AGO TODAY

"This night, Night at Berkeley A. Dis-gasp on the sandy plain of the campus, mal and onerative silence broods on the college grounds. Three thousand people stand on the slope above the campus and alarve. Beneath them, near the historic backdrop, are 150 stalwart youths. The echoes of their chattering teeth pass from hilltop to hilltop with the noise of rollers of musketry, while the trembling of their knees shake the adjacent plain with the force of an earthquake. The heroic band are freshened and they are drawn up in line of battle to await the onslaught of their hereditary foes, the sophomores, the men of '91. Within the pine grove in the front of North Hall is hidden another body of stalwarts. This is the force destined to attack the shivery regiment on the campus. Suddenly the blare of a trumpet rings out. The gallant sophia form in close order and with measured tread, sweep forward from the wood. The freshmen advance to meet the charge. But ten yards separate the foes. Suddenly from three hundred throats of brass rings an awful noise of men crushed and trampled upon, and yells of pain and triumph, the battle closes in and 300 of the pick of California's youth and intelligence struggle and

## MUCH IN LITTLE

Britain exports in February were valued at \$200,000,000. The grasshopper can jump 200 times its own length. For every 1000 males employed in New Jersey there are 216 females. Protestants of the United States gave \$18,298,000 to foreign missions in 1913. Fish gitano as a supplemental food for cattle, hogs and poultry is coming into general use in Germany. Ties made of a species of native hardwood have been used on the Panama railroad without renewal for more than 50 years. Brass farthings were authorized by English law in the year 1612. They were suppressed as worthless for more than 50 years.

## FARM FACTS

Success is bound to come to the farmer who plans while he plows. No cultivation has ever advanced beyond its agricultural development. No farmer is successful who thinks more of his barn than he does of his home. The development of the farmer himself must precede the full development of the ground he tills. The most beautiful fact in the farmer's work is that everything he plants is a lesson in faith. The waste of effort through impractical methods of farming is the greatest tragedy of the age. Under the present system of marketing farm products it is possible and often occurs that people in one part of the United States literally starve for the want of a product while the same product in another part of the nation is wasting for want of a market.

## Peculiar and Pertinent.

A novel newspaper has appeared in St. Petersburg, called the Vagabonds Gazette. It is intended for circulation among the criminal classes, and its chief contributors are well known to the Russian police. Signed articles relating the details of famous crimes are an important feature of the new journal—Springfield Republican.

grounds.

## BARBED WIRE—AND WAR

The liberal use of barbed wire by a force, that becomes established in such a place is of defense has often been noted. It is a fact that barbed wire has been used in a most effective manner in the Russo-Japanese war. The usual method is to stretch thousands of yards of wire, thickly barbed, in front of an enemy. Irregular fences are formed, only a few feet apart, trees, stumps and everything that can be used as a post is made to serve, and the more entangled the wire the more effective it becomes. The terrible effect upon a force, when it is cut and killed, while it is trying to break through the wire, is a fact that is well known to all who have seen it. Barbed wire is a most effective weapon in the hands of a well-trained force. It is a fact that barbed wire has been used in a most effective manner in the Russo-Japanese war. The terrible effect upon a force, when it is cut and killed, while it is trying to break through the wire, is a fact that is well known to all who have seen it. Barbed wire is a most effective weapon in the hands of a well-trained force. It is a fact that barbed wire has been used in a most effective manner in the Russo-Japanese war. The usual method is to stretch thousands of yards of wire, thickly barbed, in front of an enemy. Irregular fences are formed, only a few feet apart, trees, stumps and everything that can be used as a post is made to serve, and the more entangled the wire the more effective it becomes. The terrible effect upon a force, when it is cut and killed, while it is trying to break through the wire, is a fact that is well known to all who have seen it. ### Washington at Eleventh

The diagram illustrates the experimental setup. A subject is seated at a table, looking at a video screen. A video camera is positioned above the screen. A target is located on the screen. A horizontal line is drawn on the screen, representing the starting position of the hand. The distance between the hand and the target is labeled as 'D'. The distance between the hand and the video camera is labeled as 'L'. The distance between the video camera and the target is labeled as 'D + L'.

# AMERICAN FLEET TO REMAIN IN MEXICAN WATERS

## TERRIFIC GALE AGAIN LASHES NOME

The Destruction Wrought Last Spring Again Threatens City; Surf Advancing.

NOME, Alaska, Sept. 1.—Nome is in the clutches of a storm that threatens to repeat the destruction wrought by the gale which devastated the district last spring. At 7 o'clock last night the surf, lashed by a southeast gale from the sea, had reached the front of the life saving station and merchants were preparing to move stacks of goods to places out of the reach of the waves. A portion of the piling under one store occupied by the Dawson saloon has already been torn away. The wind is increasing.

Before the storm reached its present strength, the steamers Victoria, Corwin and Bear steamed out to sea.

STEVENS WINNER.

CONCORD, N. H., Sept. 2.—Congressman Raymond S. Stevens was the victor in the Democratic contest for the nomination for United States Senator in the primaries yesterday, according to indications from returns from 100 towns and wards. These votes gave Stevens 1944 votes to 1546 for Calvin Page of Portsmouth, and 1259 for Major William H. Barry of Ashua. Senator Jacob H. Gallinger was unopposed for renomination by the Republicans. Returns from a third of the State indicated the nomination for Governor of Roland H. Spaulding, Republican, and Albert V. Noone, Democrat. Progressive nominations were uncontested and the vote of the party was very light.

## "AMERICANS, HYPOCRITES"

### PRES. WHEELER POINTS MORAL FROM WAR

Great Conflict, He Says, Is Irrational; Civilization to Suffer.

"Americans are hypocrites—yes, they are fine hypocrites," declared Benjamin Ide Wheeler, president of the University of California, in an address "Causes of the Outbreak of the War," delivered last evening before an audience which filled every corner and pew of the First Congregational Church of this city. The lecture was one in a series now being given under the auspices of the University extension division.

His remarks upon the hypocrisy of the Americans was a conclusion that Dr. Wheeler had drawn as the result of the Spanish-American war, which, he said, was caused by improper reasons. The German war, he asserted, was perverse, unnatural and without cause.

In forceful, scholarly terms he presented pictures of the geographical positions of the Balkan states and the territory involved in the European war, which he said is terrific.

"WRONG-MINDED" WAR.

"It is a perverse and wrong-minded war. The people who are engaged in it are not sure what they are fighting about. Even we at a distance are more concerned about how the war arose and who is to blame than we are in observing its progress. Its alliances and classifications are unnatural and perverse. England and Germany, for instance, should go together and not waste in encircling each other the strength which they sorely need to keep the map in order and give the life of European civilization permanency and justice. The two nations have been steadily coming together for the past sixteen months. This perverse war broke out so suddenly that it is impossible to see the good work of these sixteen months was swept away with a flood."—President Benjamin Ide Wheeler.

## Alliances Not Natural Good Work Swept Away

"It is a perverse and wrong-minded war. The people who are engaged in it are not sure what they are fighting about. Even we at a distance are more concerned about how the war arose and who is to blame than we are in observing its progress. Its alliances and classifications are unnatural and perverse. England and Germany, for instance, should go together and not waste in encircling each other the strength which they sorely need to keep the map in order and give the life of European civilization permanency and justice. The two nations have been steadily coming together for the past sixteen months. This perverse war broke out so suddenly that it is impossible to see the good work of these sixteen months was swept away with a flood."—President Benjamin Ide Wheeler.

ifications are unnatural and perverse. England and Germany, for instance, should go together and not waste in encircling each other the strength which they sorely need to keep the map in order and give the life of European civilization permanency and justice. The two nations have been steadily coming together for the past sixteen months. This perverse war broke out so suddenly that it is impossible to see the good work of these sixteen months was swept away with a flood.

"I suppose we are justified in expecting it should be a perverse war, seeing that it had its origin where Austria and the Balkans came together. That is the part of the world where legal fiction has so long predominated over reality that nothing but unnaturalness can be expected. The people who are engaged in it are not sure what they are fighting about. Even we at a distance are more concerned about how the war arose and who is to blame than we are in observing its progress. Its alliances and classifications are unnatural and perverse. England and Germany, for instance, should go together and not waste in encircling each other the strength which they sorely need to keep the map in order and give the life of European civilization permanency and justice. The two nations have been steadily coming together for the past sixteen months. This perverse war broke out so suddenly that it is impossible to see the good work of these sixteen months was swept away with a flood."—President Benjamin Ide Wheeler.

## SEEK CLEW TO WOMAN'S DEATH

Police Search for Evidence in Los Angeles Murder Mystery.

LOS ANGELES, Sept. 2.—Following a search that has run down every clew, and to no avail, the police today are absolutely at sea, and unable to move further in the weird mystery surrounding the death of Mrs. Mary E. Kennedy, who it is believed, was murdered by a thief who stole her jewels from the body and fled. The police had several clews which have been followed to the end. They are now questioning certain friends of the woman in the hope of casting further light on the grim mystery.

Mrs. Kennedy's body was found in a vacant lot at Jefferson street and Seventh avenue. It was hidden under a clump of weeds. Zier son, Philip, declares that she wore about \$1500 in jewels when she left her home, that she was to meet a man with an automobile for a spin.

Several clews were followed by the detectives, when the body was discovered. Shortly before there had been a telephone call in a man's voice for her at her home, 1657 Jefferson street. A man was seen bending over the prostrate form of a woman near the place where the body was found. Then marks on the ground showed that the body had been dragged 15 feet to its hiding place.

FIND TORN CHECK.

An empty ammonia bottle was found near the body. The lips were seared as though by an acid. Half a torn check was found near the corpse. The torn half contains the words "Mrs. Kennedy," "five dollars," and the signature at the bottom read, "Florence H. Cheney."

## "WE WANT WASP WAISTS" YEARN FOR FEMINE FORMS DIVINE SUCH AS CLEOPATRA WORE

Wanted: Shapes.

Ten husky athletes are holding ten-minute "corset exercises" every day at the Nile Club, trying to achieve feminine proportions. It's a painful proposition. One man, rather inclined to stoutness, fainted during the ordeal. The rest are getting along slightly better. The ten exercises, too, that are played every day for lunch and laced tightly in their corsets, practice walking, deep breathing, touching, the floor without bending the knees—and all the rest of the feminine tricks. There are daily "faissetto" voice exercises, too, that are played every day for lunch and laced tightly in their corsets, practice walking, deep breathing, touching, the floor without bending the knees—and all the rest of the feminine tricks. There are daily "faissetto" voice exercises, too, that are played every day for lunch and laced tightly in their corsets, practice walking, deep breathing, touching, the floor without bending the knees—and all the rest of the feminine tricks.

## MILITARY RULE HOLDS UNTIL ELECTION

Meanwhile Conferences Are Called, and U. S. Proceeds Cautiously.

WASHINGTON, Sept. 2.—No warships are to be taken away from Mexican waters at present and treasure at command of the fleet from Rear Admiral Badger to Rear Admiral Fletcher has been postponed until next month.

MEXICO CITY, Sept. 2.—General elections have been called for November. Until these are held the country will continue under military rule.

A cabinet meeting was held in Chapultepec Castle last night, but neither President Carranza nor any of the ministers would make known the subject under discussion.

Foreign Minister Fabra left today for Vera Cruz, where it is presumed, he will take part in a conference with Paul Fuller and John R. Silliman, representatives of the American Government, and Fernando Iglesias Calderon, the Mexican historian, who is closely connected with President Carranza.

The government issued a decree prohibiting the confiscation of property by army officers without a signed order from General Carranza. The decree also prohibits military arrests on a mere accusation, two accusers being required. These accusers must prove their charges against a person within seventy-two hours or suffer the penalty which would result were the accused proved guilty. The decree is considered necessary to prevent scores of innocent persons being imprisoned and reckless confiscation of property.

at the Nile Club jinks on Sunday evening. The Nile Club members will spend two nights of the natural amphitheater in the H. C. Capwell grounds at Brookdale, where the yearly "jinks" takes place. Saturday night will see the "low" jinks featured by vaudeville, under the direction of Gerald P. Beaumont. Sunday night will see Woolner's play, "Simri of the Sands," which the Nile Club will feature at its Brookdale revels Saturday, Sunday and Monday.

Cigarettes, Laden With Lethal Drug, Led Road to Crime

Morphine, cocaine, opium, and now Toxicol is the latest addition to one list of deadly drugs.

"I smoked Toxicol cigarettes," was the plea for mercy of Thomas W. Saylor, who was arraigned for stealing from a grocery store before Judge Ogden today.

WOMAN TO BE FREED.

PORTLAND, Sept. 2.—The four victims of the bad check operations of Mrs. Kota Pierce Helm, "June the Blonde," express a willingness to drop charges against her, providing their losses are made good, so it is probable the woman will be released. Her pecuniary amount to about \$200, and her mother, Mrs. Mary Pierce, says she will be glad to pay the money. Mrs. Helm is in the county jail.

Auto-Mishap Victim May Survive Injuries

BERKELEY, Sept. 2.—Despite the fact that she suffered in an automobile accident on San Pablo avenue a fractured skull, fractured jaw and five fractured ribs, bones are held out at Roosevelt hospital this morning for the recovery of Mrs. H. J. Walsh of 215 Bruce street. She is under the care of Dr. J. J. Benton, city health officer, and is in serious condition.

## NEAR ACCIDENT CAUSES AUTO DRIVER'S ARREST

Fred Westphal was arrested at Twelfth and Broadway last night for violating Section 11 of Ordinance 507, which prohibits the driving of an automobile while under the influence of liquor. It is alleged by Patrolman Gushie and Special Agents that Westphal, after drinking, drove his machine within eight inches of the rear step of a street car which was taking on passengers, and narrowly avoided running down a woman in the act of boarding the car. Other passengers escaped by running to the curb.

## AUCTION SALES

## ALAMEDANS AID IN RATE CONTEST

**City Attorney and Commerce  
Chamber Men in  
Hearing.**

ALAMEDA, Sept. 2. — Alameda was represented today at the hearing before the railroad commission into the application of the Southern Pacific company for an increase of transit fares. Circuit Attorney Samuel Poorman Jr., who has been attending the sessions, was present as was a delegation from the Chamber of Commerce.

Samuel Poorman says that Alameda residents need not be fearful as the outcome of the application as far as Alameda is concerned. He asserts that this is a state property and that he believes that the Southern Pacific company will not be able to obtain a rate increase without the approval of the state.

Poorman appeared before the commission and presented and listened to the appeal of the residents of Havenswood county for a reduction of fare from 15 cents to 10 cents.

The Central Pacific company was granted a franchise January 18, 1894, for the operation of a street car line from July 1, 1894, to July 1, 1899. This franchise determines the rate of commutations not to exceed a month and a half, and also that the company cannot reduce the number of trains or boats beyond the number granted by the franchise, and that the franchise was a half hourly service.

The service cannot be lessened nor stations abolished without the consent of the board of directors. It is also provided that if the company does not comply with the franchise and all rights of way are automatically forfeited.

Consequently, the franchise was given a franchise to operate on Central and Enonal avenues until May 21, 1899.

**BERKELEY, Sept. 2.**—Notable progress in the conduct of the local work of the Children's Home Society, which is run under the eye of the state government, was revealed at yesterday afternoon's meeting of the women's auxiliary board. The report of the work of the home society at Grove and Russell streets, Mrs. C. H. Reilly presided.

Officials of the society announced that during July 17 children had been placed from the local home in desirable families. The investigation of the "Tenderloin" was completed, according to the reports, before the children were assigned. The formal transfer of the little ones to their new parents will not be ratified for a year, permitting a further investigation.

A long list of recent donations was read, and the ladies' thanks were expressed for the courtesies.

Tomorrow evening at the Twentieth Century Club will be held the benefit card party which has been planned for some time by a number of Berkeley women, and which is expected to be both social and financial success.

**MANY GRASS FIRES.**  
ALAMEDA, Sept. 2. Three grass fires in the Colton property, west of Ellis street, were started simultaneously this morning and the firemen were kept busy for an hour extinguishing the blazes. The grass is used for cattle feed and its destruction is a considerable loss.

Fire Chief Walter Steinhelm believes that the fires were started by an incendiary, all being in progress within a few moments of each other.

**CHIEF TAKES VACATION.**  
ALAMEDA, Sept. 2. Fire Chief Walter Steinhelm this morning started on his annual vacation. Tomorrow the chief and his wife will go to the Santa Cruz mountains, where they will sojourn for a time and then return to Sacramento, to attend the State fair.

**ALAMEDA SOCIETY**

**ALABAMA.** Sept. 2.—Mr. and Mrs. Thomas Haskins have returned from an extended tour of the Hawaiian Islands, which they have spent the past two months. Russell Haskins and Miss Anita Haskins, during the absence of their parents, spent the time in visiting relatives in Hawaii. Both of them have returned and have taken up their school duties at the Haskins school. The first dance of the season of the Saturday Social will be given at the Haskins school. Soes hall September 5. There will be a car dance for those who do not care for dancing. The dance is under the direction of Mrs. Edna Grant Clark.

Mrs. Jessie Pascoe, who has been spending the vacation months in the bay district of the Hawaiian Islands, has returned to the Hawaiian Islands, where she is engaged in teaching in one of the Bishop schools in Honolulu. Mrs. Pascoe is the wife of Mr. Fred Ray, in Piedmont, and was in Sacramento for a time as the guest of her sisters, Mrs. J. C. and Mrs. J. W. Pascoe. Mrs. Pascoe has been from her work, which has been most successful among the foreign children of different nationalities, and has been well rewarded. There were a number of years ago with Mrs. Pascoe.

[illegible]

refreshments.

Mrs. E. G. Bush of 1224 Canton avenue will compliment Miss Frances Hamer with a dance at her home the evening of September 10. Mrs. Bush will be assisted by her daughter, Miss Edith Bush, 420 West Hamner, in greeting her guests, who will include a number of the Oakland smart set as well as a number of the very people in local society. There will be about thirty guests.
